King Mt 138 kV: interconnection queue history

Three of four requests withdrew; one reached operation.

Four interconnection requests since 2018: 1 reached commercial operation and 3 withdrew.

REQUESTS	BUILT	WITHDRAWN	STILL IN QUEUE	MEDIAN YEARS
4	1	3	0	2.7

THE QUEUE RECORD (SOURCE ROWS)

Requested	Project	Technology	MW	Outcome	Dated
2018-12-12	Timberwolf POI A Solar	Solar	152.11	Withdrawn	2021-04-26
2019-08-13	Timberwolf Solar Increase	Solar	80	Withdrawn	2019-09-10
2020-12-02	Timberwolf BESS	Other	25	Withdrawn	2021-06-29
2021-03-31	TIMBERWOLF BESS 2	Other	150	Built	2023-12-21

WHAT THE RECORD SHOWS

- 257 MW of the 407 MW filed here withdrew, and 150 MW reached commercial operation.
- The one request that reached operation took 2.7 years from request to commercial operation.
- The largest request filed here, 152 MW (solar), withdrew 2.4 years after filing.
- Two of the 3 withdrawals came within a year of filing.

This is a reading of a public dataset, not a customer case study: no engagement, customer or client is involved. The dataset records outcomes — what was built, what withdrew, and when — but not why any project withdrew, so no cause is attributed here. Nothing on this page claims GridVision predicted, influenced or would have changed any outcome, and a pattern at one point of interconnection does not generalise to another.
