# Peters 138 kV: interconnection queue history

Two of three requests withdrew; one reached operation.

Three interconnection requests since 2018: 1 reached commercial operation and 2 withdrew.

| REQUESTS | BUILT | WITHDRAWN | STILL IN QUEUE | MEDIAN YEARS |
|---|---|---|---|---|
| 3 | 1 | 2 | 0 | 4.2 |

## THE QUEUE RECORD (SOURCE ROWS)

| Requested | Project | Technology | MW | Outcome | Dated |
|---|---|---|---|---|---|
| 2018-07-02 | Walstrom | Gas | 200 | Withdrawn | 2022-02-17 |
| 2021-07-08 | Walstrom BESS | Battery | 205.31 | Built | 2025-10-06 |
| 2024-09-03 | ELTEX Power Station | Gas | 487.72 | Withdrawn | 2025-04-01 |

## WHAT THE RECORD SHOWS

- 688 MW of the 893 MW filed here withdrew, and 205 MW reached commercial operation.
- The one request that reached operation took 4.2 years from request to commercial operation.
- The largest request filed here, 488 MW (gas), withdrew 0.6 years after filing.
- One of the 2 withdrawals came within a year of filing.

This is a reading of a public dataset, not a customer case study: no engagement, customer or client is involved. The dataset records outcomes — what was built, what withdrew, and when — but not why any project withdrew, so no cause is attributed here. Nothing on this page claims GridVision predicted, influenced or would have changed any outcome, and a pattern at one point of interconnection does not generalise to another.
