White River 345 kV: interconnection queue history

Two of three requests reached commercial operation.

Three interconnection requests since 2014: 2 reached commercial operation and 1 withdrew.

REQUESTS	BUILT	WITHDRAWN	STILL IN QUEUE	MEDIAN YEARS
3	2	1	0	3.2

THE QUEUE RECORD (SOURCE ROWS)

Requested	Project	Technology	MW	Outcome	Dated
2014-02-23	Pumpkin Farm Wind	Wind	280.9	Withdrawn	2020-05-13
2014-02-24	Cotton Plains Wind	Wind	50	Built	2017-04-20
2014-02-24	Old Settler Wind	Wind	150	Built	2017-04-20

WHAT THE RECORD SHOWS

- 281 MW of the 481 MW filed here withdrew, and 200 MW reached commercial operation.
- Completions here took between 3.2 and 3.2 years from request to commercial operation (median 3.2).
- The largest request filed here, 281 MW (wind), withdrew 6.2 years after filing.
- Two requests were filed on 2014-02-24; all of them reached operation.

This is a reading of a public dataset, not a customer case study: no engagement, customer or client is involved. The dataset records outcomes — what was built, what withdrew, and when — but not why any project withdrew, so no cause is attributed here. Nothing on this page claims GridVision predicted, influenced or would have changed any outcome, and a pattern at one point of interconnection does not generalise to another.
