WHAT THE RECORD SHOWS

- 2,003 MW of the 2,003 MW filed here withdrew.
- The largest request filed here, 266 MW (wind + battery), withdrew 0.7 years after filing.
- Four requests were filed on 2018-04-12; all of them withdrew.
- Four of the 12 withdrawals came within a year of filing.

This is a reading of a public dataset, not a customer case study: no engagement, customer or client is involved. The dataset records outcomes — what was built, what withdrew, and when — but not why any project withdrew, so no cause is attributed here. Nothing on this page claims GridVision predicted, influenced or would have changed any outcome, and a pattern at one point of interconnection does not generalise to another.
